The County's Zoning Administration Office consists of the County's Zoning Administrator and her assistant. The function of the Zoning Administrator is to administer and enforce the County's zoning ordinance. The Administrator's authority includes, in certain cases, the ability to issue a written order requiring compliance with the ordinance; the ability to initiate legal action; and the ability, in specific cases, to make findings of fact and, with concurrence of the county attorney, conclusions of law regarding determinations of property rights under the zoning ordinance.
