*Updates: DJJ gave update on Truancy and there was 1 monthly progress reports 1 unsuccessful closure with petition, and 1 active diversion. April 1 is the cut off for any new referrals. Foster care numbers 33 in foster care and 4 in Fostering futures. The preliminary audit report from OCS was sent over to CSA Coordinator. Reviewed over with the team and discussed questionable costs. The CSA Coordinator will have the opportunity to respond to this report and send over any additional information that may be helpful or was still missing from the audit. Some of the questionable costs are why certain services were not Medicaid funded, and our response to this is based on limited services in our areas, and a lot of providers in our areas are straight pay. The response is due April 17<sup>th</sup>, 2025. A copy will be attached to April's meeting. The team also discussed about the Budget meeting and supplemental that was requested to try and make sure we have enough funds to finish out the fiscal year. We did request an increase in funds for the 25/26 fiscal year due to so many residential services being requested, along with high price services.*

*CSA has still actively been involved in identifying a potential parent representative for CPMT. It has been unsuccessful due to schedules, finding an appropriate individual to follow the confidentiality requirements, and who would best fit the needs of the team.*
