Temporary Electrical Service Policy

If a permit is issued for temporary electrical service, the following shall apply:

- All work must comply with the Virginia USBC, the NEC (NFPA 70) and any electrical service provider regulations or requirements.
- An inspection must be performed per the Required Inspections List.
- Temporary Service shall only be granted for a specific use and specified time period.

Temporary Service will be disconnected, when or if any of the following occurs:

- The time period expires
- The permit expires or is revoked
- The service is being used contrary to the permitted use
- Any unsafe conditions are discovered

Note: eventually all temporary electrical service installations must be disconnected
